## STOCK EXCHANGE PRICES IN HANDS OF SPECULATORS

Numerous specialties, including War Shares and like issues, move to higher levels; Coppers advance.

**CHICAGO BOARD OF TRADE.**  
Chicago, Nov. 12.—Announcement of record-breaking exports did a good deal toward lifting the wheat market today after an early decline. The close, although nervous, was 3¢ to 4¢ net higher, with December at \$1.04 1/2 to 1.04 1/4, and May at \$1.05 1/4. Other leading staples, too, all scored gains—corn 3¢ to 1 1/2¢; oats, 3¢ to 4¢ to 4 1/2¢, and provisions 7¢ to 5¢.

Most of the strength in wheat developed after the posting of figures showing that exports of wheat and flour from North America for the week had reached the huge total of 12,875,000 bushels, an amount never before seen in the final hour, when moderate activity ruled.

Numerous specialties, including war shares and like issues, were moved to higher levels, and coppers, particularly American Smelting, the second most active issue of the day, substantially supplemented recent gains. High grade railways and kindred investment stocks were irregular, when not actually re-actionary.

Overnight developments, so far as they touched upon home affairs, furnished ground for increased optimism, especially as applied to industrial conditions. Demand for iron and steel and other base metals in itself offered sufficient explanation for the strength of industrial securities.

United States Steel rose 1 1/2 to 8 3/4, equalling its recent high quotations, and Anaconda, 1 point to 88, establishing a new record for that stock. There were 3- to 5-point gains in Colorado Fuel and Texas company. These gains were materially shaded in late trading.

Union Pacific was among the few important railway stocks to show a net gain on the day. Bethlehem Steel closed at 145, up 3 points. Total sales of stocks amounted to 577,000 shares.

**CHICAGO BOARD OF TRADE.**

New York, Nov. 12.—In its technical and speculative aspects today's market was largely a repetition of the session immediately preceding. Trading again favored of the professional and was dull except during the forenoon and in the final hour, when moderate activity ruled.

**DUNS' WEEKLY REVIEW.**

New York, Nov. 12.—Duns' Review tomorrow will say:

In spite of the rapidity of the movement there is no slackening of the advance that foreshadows the great commercial development in the history of the country. Following many months of gradual recovery and adjustment to new conditions, progress has come with such a rush that reaction is feared in some quarters; yet the economic position steadily gains in strength and solid if ever has the situation so favored continued expansion. Business is no longer wholly dependent upon the war demands, the human crops, the wide-spread increase in production, in the working force and in the power of the people to purchase having established the basis for an era of unexampled prosperity. There is, moreover, the further and highly significant influence of abundant supplies of money for all legitimate purposes.

The figures of merchandise exports, pig iron output, bank clearings and railroad earnings, bring to light achievements without precedent and to the list of remarkable attainments have been added those of unfilled steel tonnage and commodity prices.

**BOSTON WOOL MARKET.**

Boston, Nov. 12.—The Commercial Bulletin tomorrow will say:

Another week of considerable activity in wool has been experienced by the Boston wool trade and prices are generally firmer and in some cases actual advances have been obtained. Especially is this true of medium fleeces and the best fine striped wools.

Conditions in the goods market are encouraging. Both wools and worsted manufacturers have been buying this week, but especially the latter.

**SECURED BONDS.**

Texas—Fine twelve-month bonds—\$5,676.75; one-year, \$4,041,119.74.

**LONDON WOOL AUCTION.**

London, Nov. 12.—A moderate selection of 7,600 bales met with an increased demand at strong prices at the wool auction sales today. Long medium greasy merinos and medium secured crossbreds advanced 10 to 15 per cent and common greasy cross-
